1) At first they were under the control of the Muzrai Department but were ultimately transferred to the Education Department in 1901.

3) In 1911 a sum of Rs 60/- a month was made available from Gumbez funds for the grant of Scholarships to deserving Mahammedan boys and girls.

4) Thus a total expenditure of Rs 143-8-0 a month is being incurred for the advancement of Mahammedan Education.

5) owing to high prices and deterioration of the Gumbez buildings and garden, it is absolutely necessary to sanction a large outlay if the services and premises are to be maintained in a satisfactory State and this is found impossible unless the Government are willing to set free the Contribution now made to the educational institutions and Scholarships.

6) Proposals for the reorganization of the institution have been drawn up and the expenditure is pitched as low as possible, before further consideration of them, orders of Govt. as regards setting free the Contribution are quite necessary

7) The papers are accordingly submitted for favour of orders A Contribution of the sort can only be temporary in nature and

As is to be expected the D. of Education has viewed the question from the standpoint of this dept. and has not apparently gone into the merits of the question. It seems to me that the decision has been based upon what the district can afford rather than what the Edn dept will be glad to receive as contribution. Besides the contribution is to be for what may be called secular education which is a legitimate charge upon Govt. resources.

File No 291 of 1892-3 gives a history of the matter in detail and it will be seen that the original Jodia was fixed in consultation with the Collr long soon after the Island was acquired and was based on the assessment of transfer. The Schools do not appear to have formed a matter then. Said that the Jodia fixed was charged on the regular Revenue which is excepted by the transfer. I have not been able to get at the file itself but a copy [illegible]

7th August 1882 is put up for reference. It may be argued that while the Govt retain absolute freedom to select the grant as they please, such a freedom is questionable when the operation amounts to an assignment for a purpose not immediately connected with the institution.

Whatever the legal aspect of the question may be, it seems to me that the institution maintenance of the institution in its original condition of preservation and usefulness has even a political aspect and considered on the basis of the purchasing power of the Rupee, the grant now made will be all too inadequate to place the institution at the original standard of usefulness. It is admitted that the garden has deteriorated and so also the services owing to the incompetency of the [illegible]. The revised scale has been after a great deal of thought & breaking down of requirements this maximum but it can not

Tho the reply from the H & E is what was to be expected yet it was necessary to ascertain his views on the question. As matters stand, I agree with the Mudaliar in thinking that the allotment should be primarily withheld from the proposed upkeep of the Muhammadan endowments and part of it diverted into other channels albeit in the cause of Mahomedan Education, to their prejudice. So long as circumstances permitted a diversion of funds that was well & good but the Secretary's objection cannot possibly be given the preference over the Primary one. The H & E may therefore be informed that the contribution be continued since additional funds are required for the main purpose itself.

MEMORANDUM.

Proposal for fixing the scale of the Gumbuz, Masjid-i-Ala and Minor Masjids at Seringapatam.

The aggregate income which at present works up to Rs.14,370/- includes an item of Rs.700/- being the interest earnings from investment and Rs.600/- from the garden. The former will be considerably diminished when the thorough repairs of all the buildings are taken up for which a rough estimate of Rs.25,000/- has already been prepared. The garden income is fluctuating from year to year and cannot wholly be depended upon. We may safely put the total income at Rs.13,700.

Statement sent latter to-day dtd 14/12

2. Owing to rise in prices considerable addition has to be made in recurring charges for the celebration of Urus and Ramazan and a substantial provision for annual maintenance for the buildings and garden has also to be made if the premises which are frequently visited by distinguished people are to be kept in good condition.

3. The minimum requirements of the institution require an annual expenditure of Rs.~~12,900~~ 12,570/- leaving a surplus of Rs ~~800~~/- which just leaves a margin of safety to meet unexpected calls for capital expenditure for repairs and restoration.

4. ~~At present a~~ sum of Rs.143-8-0 a month is being spent upon two educational institutions and scholarship as shown in the margin and the Gumbuz Funds will have to be set free of these charges if the

SIR,

With reference to your letter No. 972/Muz.71-18-2 dated 24th September 1918 calling for my views in the matter of the discontinuance of the contribution now paid from the Gumbuz Funds for the maintenance of the Hindustani schools at Mysore and Ganjam and for certain scholarships, I have the honour to state that a portion of the fund should be made available for meeting the cost of schools and for awarding scholarships to as many deserving pupils as possible.

The abolition of the Mahomedan scholarships ordered in Government Order No.3943-7/Edn.42-17-35 dated 16th October 1917 has greatly crippled the sources available to award adequate scholarships to Mahomedan pupils. It is therefore my opinion that the small contribution now paid out of Gumbuz funds may be continued.
